

PROFILE

Dedicated backend developer with a passion for coding and a focus on delivering high-quality solutions. Proficient in PHP, HTML, JavaScript, Bootstrap, Vue, and Laravel, with the ability to seamlessly transition between backend and frontend development. Experienced in freelancing, adept at working independently to meet project requirements, but also open to collaboration when necessary. Although communication may not be a strong suit, my commitment to coding excellence and continuous learning drives my career objective to excel as a backend developer, where my skills can make a significant impact and be recognized within the development community.
